

Comat AG becomes ComatReleco Ltd.

Dear customers, suppliers and partners

Please note that Comat AG became ComatReleco Ltd. on Sept 7, 2017. We finally executed on how we acted since many years. In 2006 Comat AG (Switzerland) acquired Releco SA (Spain). During the following years the activities of both companies were combined and since 2012 exclusively managed from our headquarters in Switzerland. Therefore the change now to ComatReleco. This goes along with a change of Email addresses (new: [firstname.lastname@comatreleco.com](mailto:firstname.lastname@comatreleco.com))

As before you will find all information about our company and the products on [Comat.ch](http://Comat.ch) as well as [Releco.com](http://Releco.com). Within the first quarter of 2018 we will integrate those two web sites into one named [comatreleco.com](http://comatreleco.com). Followed a bit later by a purely knowledge based web site covering all topics and information within the World of Relays, named [www.WorldOfRelays.com](http://www.WorldOfRelays.com).

Please don't hesitate to contact us for further questions. We appreciate the collaboration with you and look forward to a successful continuation.

Best regards

ComatReleco Ltd.
