

Discontinuation

Comat products are characterized by a long life cycle. Furthermore, there are constantly appearing new products and new product versions to optimize and complete the existing range. We are doing our best to fulfill all of your requirements.

Nevertheless, we have to take the following products out of our product range:

- **AF-MUL/AC110-240V**
- **AF-MUL/DC12-24V**
- **Accessories AF-BC and AF-ATL**

You have the option to order the discontinued products until stocks lasts. Please contact our sales team to get more information.

We appreciate your understanding. Please do not hesitate to contact us for more information.

Best regards

Andreas Schrag
Vice President Sales
